Adoption Specialist

As a Customer, tracking IT assets and entitlements can be a daunting task

Without full visibility, organizations risk exposure

Legal issues

Software compliance

Lost entitlements/ PAKs

Software audits

Financial issues

Over purchasing and/or under purchasing of software

Ineffective contract negotiations

Costly audits

Operational issues

Poor utilization tracking

Unused software – "shelfware"

No holistic view into support and service contracts

Limited visibility into IT assets and entitlements can leave organizations open to significant legal, financial and operational exposures

Customers need insight into what they own and what they are consuming
